EDUCATION

Indian Institute of Information Technology Manipur

B.Tech in Computer Science and Engineering, **CPI: 8.65**

Manipur, India

Aug 2023 – Jun 2027

Bihar School Examination Board

Intermediate, Marks: 85.6%

Central Board of Secondary Education

Matriculation, Marks: 93%

PROJECTS

MindLens – Multimodal Mental Health Analysis System

Jan 2026 – Present

Python, PyTorch, BERT, Librosa, OpenCV, FastAPI, React

- Built a multimodal AI system leveraging text, audio, and facial data for detecting mental health conditions.
- Developed deep learning models (BERT, CNN, Wav2Vec2) and applied fusion strategies for unified risk scoring.
- Deployed scalable FastAPI endpoints with real-time inference and explainable AI insights (SHAP).

AI-Powered Resume Builder & Automated Job Recommendation

Dec 2025 – Feb 2026

MERN, Groq API (Llama 3.1), TailwindCSS

- Built an AI-powered resume chatbot with ATS scoring and skill-gap analysis using LLMs.
- Designed an automated job ingestion pipeline using AI search, Gmail API, and MongoDB storage.
- Implemented a recommendation engine with JWT authentication and cron-based job matching automation.

Multiple Disease Prediction System

Oct 2025 – Dec 2025

Python, NumPy, Pandas, Streamlit, ML Models

- Developed ML models for predicting Diabetes, Heart Disease, and Breast Cancer using healthcare datasets.
- Applied feature engineering and trained models (SVM, Logistic Regression, Random Forest).
- Built and deployed a Streamlit app with integrated AI chatbot for user interaction.

TECHNICAL SKILLS

Languages: Python, C/C++, SQL, JavaScript

Machine Learning: Supervised/Unsupervised Learning, Feature Engineering, Model Evaluation

Deep Learning: CNN, RNN, LSTM, Transformers (BERT, RoBERTa), Wav2Vec2

Libraries/Frameworks: PyTorch, TensorFlow, Scikit-learn, Pandas, NumPy, OpenCV, Librosa

MLOps & Tools: FastAPI, Docker (basic), Git, REST APIs

Web: React, Node.js, Express.js

Databases: MongoDB, MySQL

ACHIEVEMENTS

Secured **99th rank** and awarded the **Bronze Medal** at the ICPC Asia Taiwan Regional Contest.

Secured **732nd rank** out of **80,000+ teams** in the Amazon ML Challenge 2025.

Selected as an **Open-Source Contributor in SSOC**.

Solved **600+ problems** on LeetCode and Codeforces.

Achieved **1250+ rating** on CodeChef.
